

Financial Empowerment and Welfare Benefits Awareness Programme with Hopscotch

Our welfare benefits awareness programme is an initiative that equips individuals with the knowledge and skills needed to access their entitled benefits, reduce financial stress, and enhance overall well-being. We are committed to supporting the community and addressing economic inequality by helping families navigate the complex benefits system.

We strongly believe organisations can play a significant role and make a positive impact by leveraging their resources and infrastructure for employees who may be in need of financial assistance. It creates an environment where staff feel valued and motivated.

The programme is designed to be comprehensive yet accessible, structured into distinct modules that cover welfare benefits, financial planning, and practical budgeting skills.

- Understanding various welfare benefits such as universal credit, housing, disability
- Eligibility and Application Process
- Benefits Calculator
- Budgeting
- Financial Planning for the future

Incorporate into Employee Development

- Integrate the training into existing employee development and wellness programmes.
- Make the training a part of onboarding processes for new employees.

By participating in this programme, employees will be better prepared to access welfare benefits and make informed financial decisions, leading to greater financial stability and security. This initiative not only supports individual staff members but also enhances the overall workplace environment by fostering a culture of support and care.

Why this training is important for organisations?

- Improved financial literacy of staff members
- Enhanced employee well-being
- Increased employee productivity and retention
- Regulatory compliance and reduced legal risks for organisations
